CORPORAL ALEX. GRIGNON, our faithful
telegraph repairman, has been disabled
for more than two weeks past with a very
painful hand. The third finger of his left
hand was accidentally bruised and a
thorn run through the flesh near the
knuckle. The entire hand became much
inflamed and the finger was swollen to
four times its natural size when lanced.

Mr. G. has passed many sleepless nights
and has suffered quite as much pain as
usually results from a felon, but we are
pleased to state that the patient is now ra-
pidly improving and hopes to be fit for
duty in a short time. Corp. Grignon is one
of the best men on the line and as a proof
of his efficiency we may state that not
withstanding the severe storms during the
time he has been disabled his sections
south and west from Florence have not
been out of repair once. This is evidence
of the excellent condition in which this
part of the line has been kept. If all re-
pairmen were equally faithful telegraph
communication would not be cut off for
days and weeks at a time as has recently
been the case.

Mining Locations.

The following mining locations have
been filed in the office of the County Re-
corder since the 23d inst:

Union, half mile southwest of the El
Capitan, by W. W. Harrod and H. McPherson.

Trix, in Pioneer District, by C. E. Royce
and H. B. Royce.

Golden Prize, near Mineral Creek, by
Patrick Gibney and John Gibney.

Good Joke, in Pioneer District, by J. C.
Chapin and C. H. Horne.

Superior, 2 1/2 miles east of Florence, by
Bill DeArmitt and John A. Osgood.

ANOTHER excellent assortment of provi-
sions and furniture has just been received
at the Cosmopolitan House direct from
San Francisco. Fish, fruits, wines, &c.,
for the table, also, carpets, windows, blinds,
carpets, bed furniture, &c., for the new
rooms. Mr. Billicke has three rooms near-
ly completed which will be fitted up with
modern conveniences for gentlemen with
their wives and families. All the stages
stop at the Cosmopolitan House, and
strangers cannot find better accommoda-
tions in town than are furnished by Mr.
Billicke.

THE examination of John C. Loss was
concluded last Saturday. The evidence
showed that Robinson had frequently
threatened to kill Loss, and these threats
were continued up to the very day of the
shooting. Also, that Robinson made a
motion as if to draw a pistol before Loss
began shooting. Judge Walker ruled that
it was a bullet case and the bond was
fixed at \$8,000. Satisfactory bondmen
were secured on Sunday and Mr. Loss
was released to await the action of our
next grand jury.

TOM CHANE, Superintendent of the Flo-
rence Water Works, is prepared to supply
individuals and families with any amount
of pure, fresh water. His new well is an
excellent one and his portable reservoir is
rolled about town twice each day for the
accommodation of his patrons. He is al-
ways good-natured if paid regularly and
well. He thinks of giving a croquet with
each bucket of water during the quarter.

THE walls of the new court-house are
up about twelve feet. Work has been
suspended during the present rains. The
building ought to be completed in time
for the term of court next spring. Won't
our Board of Supervisors order a new jail
to be constructed in connection with the
court-house?

C. FEUILLU & Co. have now in Yuma
3200 pounds of choice wines and liquors
awaiting shipment. This added to their
already excellent stock will place the One
Bit Bar on a very solid footing. F. & Co.
are very clever French boys and hence
their popularity. Call and see them at
the corner of Jim Sam's block.

THE latest announcement as candidate
for sheriff is J. P. Gabriel. Last week the
bulletins were printed G. P. by mistake.
Mr. Gabriel is so well known that our
mistake scarcely needs correction. If
"Pete" is elected his friends need not
fear that the duties of his office will be
neglected.

MRS. JOSEPH COLLINGWOOD returned
from California by coach Tuesday morn-
ing after an absence of several months,
during which time she has enjoyed the
comforts and luxuries of life in San Fran-
cisco and Oakland, where she has been
visiting friends.

AARON MASON returned from California
last Sunday, where he has been to
look after the private affairs of his recently
deceased brother.

GEORGE A. CLUM came up from Tucson
Tuesday morning and went out to Picket
Post yesterday where he has business to
engage him for a month or two.

THE family of the late Charles G. Mas-
on has returned from Los Angeles and
will reside at the old homestead.

THE CITIZEN editor paid a visit to Tus-
con again this week. He was not invited,
he took a loaded rifle in the face this trip.

AFTER a rest of over two weeks the tele-
graph line again worked through to Yu-
ma on Tuesday. Yesterday it had "tumb-
led" again, and doubtless we can wait
another two weeks to send our next dis-
patch. Such a—, but then we don't
growl.

For several days this week the Gila has
been too high for fording. The Silver
King stage started out last Friday morn-
ing, but was obliged to return on account
of the high water. Since Tuesday the
stages have crossed. The Salt river is
very high and is crossed by a ferry.

COUNTY RECORDER J. J. DEVINE, left
last evening for a trip to Pioneer and
Globe Districts, and to San Carlos. His
business we believe is to rally his friends,
who are many, for the approaching elec-
tion. Mr. Devine has been a good officer
and will without doubt be reelected.

AARON MASON, Superintendent of the
Silver King mine, left for Picket Post last
evening. It is rumored that he took funds
with him to pay off the employees. The
Company has not paid off for three or
four months.

No rain this week. Weather pleasant.
Everything growing—even scandal.

Rich Ore from Silver King.

The concentrated ore crushings of
the Silver King mine, Arizona, and
which are shipped periodically to San
Francisco, have been steadily growing
richer since the new mill started up
in June. Before that the average value
of the concentrations was about \$2,
000 per ton, some shipments running
more and some less than that rate.

Latterly they have gradually increased
in richness, the last two shipments
of 14,000 pounds each averaging nearly
\$3,000 a ton. A dispatch from Yuma
today says that 5,000 pounds were
shipped from there yesterday that
assayed at the rate of \$4,000 per ton.

Accompanying the last two shipments
have come, also, quantities of nuggets
aggregating about a ton, that yielded
nearly \$18,000 in pure silver. Col.
Barney, the manager of the Silver
King mine, informs us that men are
now at work in the mine opening
out its treasures. Until recently the
shipments were made entirely from
alone that the seven dividends declared
were paid—Stock Report, August 20.

From the Yuma Sentinel.

A. J. Finlay has gone to Ogden in
the employ of the Central Pacific rail-
road company.

Mr. Gillette, the mining expert, did
not go to San Francisco after all, he
has gone on to Tucson.

It is understood that Mr. H. R. Mal-
lory has been appointed agent for the
Indians on the Colorado river reserve.

There is serious talk of moving the
Signal mill over into Bradshaw to
work ores from the Tiger.

The Twelfth Infantry is now en
route to Arizona. Their presence is a
good thing for the Territory. It gives
interesting settlers more confidence in
the safety of the country, besides in-
creasing army expenditure here.

S. O. Smith and E. C. Mechan, cor-
respondents of the St. Louis Journal,
Cincinnati Gazette and Louisville
Courier-Journal, are due here to-mor-
row on their way to the Santa Rita
country, and other interesting parts of
Arizona.

JOHN B. GOGGIN, who went to Eng-
land to spend a season of absolute rest
has already made engagements for
several lectures. This is like unto
Artemus Ward, who stopped in the
midst of his scientific discourse on
"The Babes in the Woods" to rest his
voice, and while it was resting narrated
an incident in his career for the en-
tertainment of his audience.

Liberty of Speech in Cuba.

HAVANA, August 21.—The Captain-
General has issued a circular, directing
the Governors of Provinces to allow
meetings for electoral purposes, with
liberty of speech, but prohibiting at
tacks upon the integrity of the nation,
and to allow the newspapers ample
liberty of discussion upon all subjects.

LIEUT. W. H. CARTER, Sixth Caval-
ry, has been appointed regimental
quartermaster and will be stationed at
Camp Lowell. Lieut. Wm. Stanton,
Sixth Cavalry, has been assigned com-
mand of Company A, Indian Scouts,
vice Lieut. Carter, relieved.

HENRY WARD BEECHER and Henry C.
Bowen are joint executors of the
will of Miss Mervida Wood of Brook-
lyn, just deceased. The will was made
in the loving days of 30 years ago.

The skull of Captain Jack, the Modoc
Chief, hanged for General Canby's
murder, has been presented to the
Jewett Scientific Society of Lockport,
N. Y.

A MAN was married in Wisconsin
week before last, who cast his first
vote seventy-one years ago. His bride
is a tender chick of seventy-five.

THE last shipment but one of nug-
gets from the Silver King mine, in
Arizona, assayed in Frisco \$17,000 per
ton.
